

FIVE STEPS FOR A SAFE ROOM

1

CONSUMER SAFETY

Check the CPSC often for recalls on toys, furniture, and baby gear

WIRES AND OUTLETS

Cover all outlets and hide any exposed wires.

3

WINDOWS

Keep the bed and any furniture away from windows

ANCHORS

Anchor all furniture, pictures, and artwork to the wall.

CHECK

Check smoke and carbon monoxide detectors at least twice a year - each daylight savings is a good time
